

G5 Summer Newsletter - June 2021

Longer days, warmer nights, kids out of school and days at the beach. It must finally be summer in Minnesota!

The hotter temps have rubbed off on the job market too. IT job demand is rebounding. Numerous companies are unable to fill existing positions, creating upward pressure on compensation as employers scramble to hire the most talented people. The articles at right touch on many of these topics and are worth a quick read.

If you're in the job market or considering a change, take a look at the available openings and let me know if you'd like to discuss them in more detail.

In the meantime, enjoy swatting the mosquitos, and remember... Christmas is only 6 months away
